## **July, 10th 2013: technoboards KRONACH succeeds in meeting Automotive Industry Standards**

**Kronach.** Again, the excellent quality management system of the German PCB specialist proved to be outstanding: The technical examiners once more confirmed that technoboards KRONACH meets all qualifications required under the automotive industry standards ISO 9001 and ISO/TS 16949.

Meeting the high demands of the automotive, consumer electronics, telecommunications, medical engineering and industrial electronics sectors is one of the core competencies of the owner-managed enterprise. Besides multilayer, bi-layer and single-sided PCBs, technoboards KRONACH increasingly concentrates on specialized technologies and custom-made individual solutions. Besides, the Franconian model company ranks among the top suppliers for IMS switches "Made in Germany".

In addition to the automotive industry standards, technoboards KRONACH is also certified under the environmental management system standard ISO 14001 and possess the respective UL approval. In the near future, the company will also apply for the certification under DIN EN 60950-1 VDE.

Know-how, experience, innovations and certified premium quality make technoboards KRONACH the partner of choice for demanding and sophisticated customers!
